Debussy's music epitomizes the concept of Impressionism in music. One of the most famous pieces from Debussy's Preludes, Book 1, "The Girl with the Flaxen Hair" is a lyrical piece, awash with color and atmosphere. Drawing on the original autographed manuscript and first edition by Durand, all editorial details are contained in footnotes or parentheses."

La Fille Aux Cheveux de Lin (the Girl with the Flaxen Hair)

Classic Keys is a beautifully photographed and illustrated book focusing on the signature rock keyboard sounds of the 1950s to the early 1980s. It celebrates the Hammond B-3 organ, Rhodes and Wurlitzer electric pianos, the Vox Continental and Farfisa combo organs, the Hohner Clavinet, the Mellotron, the Minimoog and other famous and collectable instruments. From the earliest days of rock music, the role of keyboards has grown dramatically. Advancements in electronics created a crescendo of musical invention. In the thirty short years between 1950 and 1980, the rock keyboard went from being whatever down-on-its-luck piano awaited a band in a bar or concert hall to a portable digital orchestra. It made keyboards a centerpiece of the sound of many top rock bands, and a handful of them became icons of both sound and design. Their sounds live on: Digitally, in the memory chips of modern keyboards, and in their original form thanks to a growing group of musicians and collectors of many ages and nationalities. Classic Keys explores the sound, lore, and technology of these iconic instruments, including their place in the historical development of keyboard instruments, music, and the international keyboard instrument industry. Twelve significant instruments are presented as the chapter foundations, together with information about and comparisons with more than thirty-six others. Included are short profiles of modern musicians, composers, and others who collect, use, and prize these instruments years after they went out of production. Both authors are avid musicians, collect and restore vintage keyboards, and are well-known and respected in the international community of web forums devoted to these instruments.

Rodgers and Hammerstein's beloved song from The Sound of Music has captured hearts for generations. Now

acclaimed illustrator Renée Graef's heartwarming illustrations give it new meaning. Complete with its score, *My Favorite Things* is perfect for reading and sharing.

My Favorite Things

(Book). Every guitarist dreams of owning a handmade instrument, but for most, the cost is likely to be prohibitive. The alternative building your own fine guitar is not as difficult as you might imagine, given some skill, patience, and the expert guidance of a master luthier. Every step of construction is fully covered, from choice, selection, and preparation of woods, to consideration of size, bracing, and tonal qualities. Each step of the building sequence is clearly photographed in color, with variations to the standard design shown to enable you to personalize your instrument as you make it. Briston, England-based Jonathan Kinkead has been building guitars for nearly 30 years. His craft is born out of experience and intuition rather than a strict following of technical detail. The resulting beauty of form and distinctive tone have earned him his reputation as one of the world's most respected independent luthiers.

Build Your Own Acoustic Guitar

The perfect introduction to the electronic keyboard, and ideal for the absolute beginner getting started with their first instrument. With absolutely no musical knowledge required, this simple yet comprehensive guide is perfect for adults and children alike.

The Complete DX7

From every “beautiful mornin’” to “some enchanted evening,” the songs of Oscar Hammerstein II are part of our daily lives, his words part of our national fabric. Born into a theatrical dynasty headed by his grandfather and namesake, Oscar Hammerstein II breathed new life into the moribund art form of operetta by writing lyrics and libretti for such classics as *Rose-Marie* (music by Rudolf Friml), *The Desert Song* (Sigmund Romberg), *The New Moon* (Romberg) and *Song of the Flame* (George Gershwin). Hammerstein and Jerome Kern wrote eight musicals together, including *Sweet Adeline*, *Music in the Air*, and their masterpiece, *Show Boat*. The vibrant *Carmen Jones* was Hammerstein’s all-black adaptation of the tragic opera by Georges Bizet. In 1943, Hammerstein, pioneer in the field of operetta, joined forces with Richard Rodgers, who had for the previous twenty-five years taken great strides in the field of musical comedy with his longtime writing partner, Lorenz Hart. The first Rodgers and Hammerstein work, *Oklahoma!*, merged the two styles into a completely new genre—the musical play—and simultaneously launched the most successful partnership in American musical theater. Over the next seventeen years, Rodgers and Hammerstein wrote eight more Broadway musicals: *Carousel*, *Allegro*, *South Pacific*, *The King and I*, *Me and Juliet*, *Pipe Dream*, *Flower Drum Song*, and *The Sound of Music*. They also wrote a movie musical (*State Fair*) and one for television (*Cinderella*). Collectively their works have earned dozens of awards, including Pulitzers, Tonys, Oscars, Grammys, and Emmys. Throughout his career, Hammerstein created works of lyrical beauty and universal feeling, and he continually strove—sometimes against fashion—to seek out the good and beautiful in the world. “I know the world is filled with troubles and many injustices,” he once said. “But reality is as beautiful as it is ugly . . . I just couldn’t write anything without hope in it.” All of his lyrics are here—850, more than a quarter published for the first time—in this sixth book in the indispensable *Complete Lyrics* series that has also brought us the lyrics of Cole Porter, Lorenz Hart, Ira Gershwin, Irving Berlin, and Frank Loesser. From the young scribe’s earliest attempts to the old master’s final lyric—“*Edelweiss*”—we can see, read, and, yes, sing the words of a theatrical and lyrical genius.

DIV Johann Sebastian Bach – celebrated pipe organist, court composer and master of sacred music – was also a technical pioneer. Working in Germany in the early eighteenth century, he invented new instruments and carried out experiments in tuning, the effects of which are still with us today. Two hundred years later, a number of extraordinary musicians have utilised the music of Bach to thrilling effect through the art of recording, furthering their own virtuosity and reinventing the composer for our time. In *Reinventing Bach*, Paul Elie brilliantly blends the stories of modern musicians with a polyphonic account of our most celebrated composer's life to create a spellbinding narrative of the changing place of music in our lives. We see the sainted organist Albert Schweitzer playing to a mobile recording unit set up at London's Church of All Hallows in order to spread Bach's organ works to the world beyond the churches, and Pablo Casals's Abbey Road recordings of Bach's cello suites transform the middle-class sitting room into a hotbed of existentialism; we watch Leopold Stokowski persuade Walt Disney to feature his own grand orchestrations

of Bach in the animated classical-music movie *Fantasia* – which made Bach the sound of children’s playtime and Hollywood grandeur alike – and we witness how Glenn Gould’s *Goldberg Variations* made Bach the byword for postwar cool. Through the Beatles and *Switched-on Bach* and *Gödel, Escher, Bach* – through film, rock music, the Walkman, the CD and up to Yo-Yo Ma and the iPod – Elie shows us how dozens of gifted musicians searched, experimented and collaborated with one another in the service of a composer who emerged as the prototype of the spiritualised, technically savvy artist. /div

The MIDI Manual

Haynes manuals are now being published on a wide range of subjects, including musical instruments – and here comes coverage of one of the most popular and versatile instruments of all. This manual explains the essentials of buying a piano before moving on to the meat of the book – the care and maintenance of a piano. A trouble-shooting section explains how to check condition and diagnose common piano ailments, and then three maintenance chapters follow, detailing different levels. The ‘easy’ section covers routine tasks that anyone can and should do; ‘moderate’ looks at maintenance and repair that someone with good DIY skills can achieve; and ‘advanced’ covers work that is usually best left to professionals but that it’s nonetheless good to know about.

How to Identify & Resolve Radio-tv Interference Problems

The award-winning, much-loved memoir of renowned author and musician Anna Goldsworthy about her first steps towards a life in music. In this remarkable story, Anna Goldsworthy recalls her journey from childhood piano lessons with a local jazz muso to a successful career as a concert pianist. As she discovers passion and ambition, and confronts doubt and disappointment, she learns about much more than technique. *Piano Lessons* captures the hopes and uncertainties of youth, the fear and exhilaration of performing, and the complex bonds between teacher and student. An unforgettable cast of characters joins her: her family; her friends and rivals; and her teacher, Mrs Sivan, who inspires and challenges her in equal measure, and who transforms what seems an impossible dream into something real and sustaining. This is a story of the getting of wisdom, tender and bittersweet. 'I loved this book. Anna Goldsworthy's memoir left me awed, inspired and humbled.' --Alice Pung 'Marvellous. Enlightenment and joy on every page' --Helen Garner 'An expertly spun narrative, told with wry, self-effacing charm, elegant economy and the genuine love of a student for her teacher' *The Australian* 'A brilliant memoir ... Goldsworthy is a fine writer.' *Big Issue* Winner of Newcomer of the Year in the 2010 Australian Book Industry Awards Shortlisted for the Melbourne Prize for Best Writing Shortlisted for the Colin Roderick Award Shortlisted in the NSW Premier's Literary Awards

The Watch Repairer's Manual: Second Edition Henry B. Fried was \"widely acknowledged as the dean of American watchmakers.\" In the revised, second edition, Fried addresses topics important to contemporary watch repairers, such as self-winding watches, waterproofing, calendar watches, alarm wristwatches, and chronographs. The Watch Repairer's Manual also includes a fine visual dictionary of exploded views in isometric, which are very helpful for ordering watch parts. One of the few modern books available on the techniques of watch repair and certainly the most esteemed, The Watch Repairer's Manual is outstanding for its sequence of presentation and its many useful illustrations, including enlarged details of alarm and self-winding watches. The consummate craftsman and master of details, Fried himself created the illustrations. From teaching others, Fried has learned that if you have a good understanding of how and why the mechanisms work, you will become better at fixing any problems you face-often without needing to consult a book. The Watch Repairer's Manual provides: - Helpful background material, such as full descriptions of the main divisions of the modern watch mechanisms, including the purpose and function of each unit. - Complete directions for cleaning and overhauling a watch movement for casing. - A section devoted to general repairs and troubleshooting. For anyone interested in watch repair, this volume will serve as a working manual, a reference manual, and even a course of study. Assuming little previous knowledge on the part of the reader, Fried provides complete and clear detail on each operation. The Watch Repairer's Manual should be of great value to the student, hobbyist, watch collector, and instrument maker. Henry B. Fried wrote and illustrated 14 books, many pamphlets, and hundreds of articles on horology, the science of timepieces. The first American to receive the Silver Medal of the British Horological Institute, he served as president of the New York City Horological Society and the New York State Watchmakers Association and vice president of the old Horological Institute of America. He taught and lectured on horology and served as an industry consultant. He also was a consultant for the Random House Dictionary and the Merriam-Webster Dictionary.

The Hammond Organ - Beauty in the B

This text book combines in one volume four major facets of the practical art and theory of piano tuning that students of the art must approach in formal training, and explains techniques that typically develop later in professional practice. These facets are the traditional model, the art itself, contemporary scientific descriptions, and the concept of musical temperament. Today, the 19th century traditional model of piano tuning still functions as a very basic map for the acoustical territory in which piano tuners work, but remains elementary and idealised. Modern acoustics can go much further in its descriptions than the 19th century model and is used in this book to elucidate the practical art, whilst carefully avoiding scientism. The book serves as an instruction and reference manual to advanced level on the practical art and its associated theory, and answers common questions raised by students about the actual soundscapes that are encountered in practice
